TALLAHASSEE FL 32301

Dear Carrier:

Your request for authority to file your Florida IFTA tax return transactions electronically has been approved. The web login id assigned to your account for electronic filing purposes is MCS10010351619. This number does not replace your current IFTA account number (FEID/SSN), but is an additional number associated with your web account. Please keep this number in a safe location since it will be necessary to use this number when accessing your account via the internet for IFTA tax return purposes and eventually for all IFTA and IRP transactions.

A PIN (personal identification number) will also be required in order to access your account electronically. For security purposes it will be provided in a separate mailing.

If you have any questions about this process, please call our public service telephone at (850)617-3711.
